

## FINANCIAL SUPPORT

THE ERASMUS MUNDUS EU EDUCATION AGENCY PROVIDES SOME FUNDS TO SUPPORT TO EMMCMSP PARTICIPANTS:

– **PARTNER COUNTRIES** (ex Category A) scholarships can be awarded to third-country masters students selected by EMMC consortia who come from a country other than a European country (European countries are: 28 E.U. countries, the EEA-EFTA States, EU candidate countries, as well as countries that intend to sign a cooperation agreement with EU for their full participation in Erasmus+) and who are not residents nor have carried out their main activity (studies, training or work) for more than a total of 12 months over the last five years in these countries.

– **PROGRAMME COUNTRIES** (ex Category B) scholarships can be awarded to European masters students selected by EMMC consortia as well as to any masters students selected by EMMC consortia who do not fulfill the Category A criteria defined above.

The number of scholarships for each category of individuals will be defined on a yearly basis and communicated to EMMCMSP in the autumn of the year preceding the academic year concerned. Each student's scholarship will include a maximum amount attached to the grant and intended to contribute to the student's participation costs in the EMMCMSP.

Each edition several positions will be open for self-financed students.

## TIMETABLE AND DEADLINES

(PLEASE NOTE THAT THE FOLLOWING TIMETABLE IS PROVIDED FOR INFORMATION ONLY AND MIGHT BE CHANGED)

For the Third Edition (2015-2017), the call for application of Erasmus Mundus Scholarship has been launched in **November 2014 (deadline for application 15th January 2015)**, while the call for self-financed students will be launched in June 2015.

All the application procedures are provided on line.

Please visit the web site [www.iuav/msp](http://www.iuav/msp) at the section "application" and follow the instruction.

## MSP CONSORTIUM

EMMCMSP is developed by the MSP Consortium coordinated by the Università Iuav di Venezia. The Consortium welcomes major professional entities from the coastal, marine and maritime sectors as associated partners who are involved in teaching, research and planning activities. The Associated partner provides supports both in training activities both as internships occasions for the students. The network will be implemented during the master and it is open to new institutions and associations operating in the fields of interest of MSP (coastal and sea areas planning&management, environmental planning, climate change policy design, natural resource management, environmental monitoring ...).

## MASTER COURSE ON MARITIME SPATIAL PLANNING (EMMCMSP)

### LEVEL II

#### (PREREQUISITE: BACHELOR OF ARTS)

Erasmus Mundus Master Course on Maritime Spatial Planning (EMMCMSP) is a two-years advanced professional master program, in which three high-rated European universities participate: Università luav di Venezia as coordinator, University of Sevilla, University of Azores. Students will familiarize themselves with key issues involved in policies formulation and planning strategies for maritime space, to improve the management of resources from an environmental, economic, social and legal perspective within the framework of Maritime policies.

Maritime Spatial Planning (MSP) is an innovative instrument based on up-to-date knowledge and technologies to study the planet's surface, striving to improve the management of global resources. Today planners, who traditionally dealt with the transformation of cities, territories, environments and related issues must face new marine challenges, and therefore play a fundamental role. Though for years the planning system has 'turned its back to the sea' it is pivotal in organizing and developing coastal areas beyond the CZM approach.

The sea is affected by economic, social and environmental changes and, in order to cope with the continuing social and economic evolution, it needs to be included in planning and land management strategies.

The aim of the EMMCMSP is to prepare students to become specialists – providing a multi-disciplinary background – to enable them to operate both in public institutions as well as independent professionals or researchers. As specialists they will have the know-how in planning, in designing and evaluating projects and policies, which consider terrestrial, coastal and marine dimensions. In addition, the course will provide the ability to manage decision processes towards an adaptive and integrated approach. The two-years master course provides a broad study perspective through a crossed-thematical analysis and discussion on several marine contexts (Mediterranean Sea, Baltic and North Sea, Black Sea, Atlantic Ocean). The added value consists in the comparative analysis and the methodological interaction among the institutions involved, together with knowledge transfer to the South of the World.

### STRUCTURE OF THE MASTER

With respect to the structure of the master, two terms (6+6 months) will be held in Seville (Spain) and in Azores (Portugal). Students can choose to develop their six-months Internships (third term) among the consortium affiliated members. The last term (6 months in Venice, Italy) consists in the elaboration of group projects in specific case study areas. Classes will be given in English and local languages. At the successful completion of the EMMCMSP program students will be awarded a jointly conferred master's degree of "Erasmus Mundus Master in Maritime Spatial Planning" (120 ECTS) automatically recognized in the countries of all consortium partners.

**THE CONTENTS ARE ORGANIZED IN MODULES, AS EXPRESSED IN THE TABLE AS FOLLOWS:**

Code	Module N°	Title
MPEs	1	Maritime Planning Experiences: issues and lessons
